

## Overland Storage Shortlisted for Two Network Computing Awards

January 31, 2012

*Winners announced March 22nd at London's Hotel Russell*

LONDON --(BUSINESS WIRE)--Jan. 31, 2012-- [Overland Storage](#) (NASDAQ: OVRL), the trusted global provider of [effortless data management](#) and [data protection solutions](#) across the [data lifecycle](#), has been shortlisted for two awards, Data Centre Product of the Year and Hardware Product of the Year, at the fifth annual [Network Computing Awards](#).

Overland Storage's [SnapServer DX](#) product range has been nominated for both of the awards. The product, which launched in October 2011, offers a unified NAS and iSCSI SAN device that leverages the company's [DynamicRAID](#) technology to completely eliminate the need to provision storage capacity. Expandable to 288TB and featuring an array of integrated enterprise-class features including snapshots, replication and remote management, SnapServer DX enables storage environments to effortlessly scale without downtime while ensuring maximum data protection

"Businesses of all sizes rely on Overland to solve their data management and storage challenges," said Jeremy Zuber, product marketing manager, SnapServer division at Overland Storage. "Our goal when we launched the SnapServer was to build a solution with the best features and price of any NAS solution in its class. The nominations acknowledge that businesses of all sizes are able to take advantage of the product's power, flexibility and ease of use."

The awards will be announced on March 22nd at London's Hotel Russell. The Network Computing Awards, offer readers of Network Computing, the chance to reward outstanding products, services and people within the industry. To cast your vote visit: <http://www.networkcomputingawards.co.uk>
