Storage Magazine Awards Overland's SnapServer DX Series Best Disk Product at The 2012 Storage Awards

June 20, 2012

Overland Storage NAS Product Beats The Competition

LONDON--(BUSINESS WIRE)--Jun. 20, 2012-- Overland Storage (NASDAQ: OVRL), the trusted global provider of effortless data management and data protection solutions across the data lifecycle, today announced that the SnapServer DX Series has won 'Best Disk Product' for the Small and Medium Enterprise at the 2012 Storage Awards.

In its ninth year, the Storage Awards provides a platform for readers of Storage Magazine (UK) to reward outstanding products, services and people within the industry. This win recognises Overland Storage as an industry-leading innovator - bringing to market solutions designed to simplify storage for the enterprise.

Jillian Mansolf, SVP of global sales & marketing at Overland Storage, said: "The SnapServer DX Series was built to have the best features of any NAS solution in its class, enabling businesses of all sizes to take advantage of its power, flexibility and ease of use. In addition, it allows companies to effortlessly scale without downtime while ensuring maximum data protection."

Launched in October 2011, the SnapServer DX Series offers a unified NAS and iSCSI SAN device that leverages the company's DynamicRAID technology to completely eliminate the need to provision storage capacity. Expandable to 288TB and featuring an array of integrated enterprise-class features including snapshots, replication and remote management.

Offering unprecedented flexibility, the SnapServer DX Series is the ideal solution for business applications from virtualised server, Microsoft Exchange, SharePoint and SQL environments to digital imaging, web services, storage consolidation and backup.
