About Sphere 3D

Sphere 3D Corporation (Nasdaq:ANY) is a virtualization technology and data management solutions provider with a portfolio of workload-optimized solutions that address IT needs for delivering productivity through workspace and data infrastructure and management. Dedicated to continue to lead through innovation, Sphere 3D enables the integration of virtual applications, virtual desktops, and storage into workflow, and allows organizations to deploy a combination of public, private or hybrid cloud strategies. Sphere 3D's Glassware 2.0® platform delivers virtualization of some of the most demanding applications in the marketplace today, making it easy to move applications from a physical PC or workstation to a virtual environment. Sphere 3D's V3 hyper-converged infrastructure solutions include one of the industry's first purpose-built appliances for virtual workspace workloads and the Desktop Cloud Orchestrator ™ management software for VDIOverland Storage and Tandberg Data, wholly-owned subsidiaries of Sphere 3D, provide an integrated range of technologies and services for primary, nearline, offline, and archival data storage that make it easy and cost-effective to manage different tiers of information over the data lifecycle.
