

Sphere 3D Partners with Entisys Solutions to Deliver Virtual Desktop and Application Products and Services

March 31, 2016

Partnership facilitates worldwide sales and deployment of advanced virtualization professional services and solutions to business of all sizes

SAN JOSE, Calif., March 31, 2016 (GLOBE NEWSWIRE) -- Sphere 3D Corp. (NASDAQ:ANY), a containerization, virtualization and data management solutions provider, today announced it has partnered with [Entisys Solutions and its Southern California division, Agile360](#), a top-tier consultancy and integrator of virtualization solutions that are also certified as a premier solutions provider of VMWare, Microsoft, and Citrix products among many other key technology vendors. Through this new partnership Entisys will serve as a Certified Value-Added Reseller (VAR), as well as provide installation, integration and technical consulting services for Sphere 3D's [V3 virtual workspace](#) infrastructure solutions.

"Sphere 3D has compelling virtualization offerings that provide new levels of functionality for businesses of all sizes looking to migrate physical desktop and legacy applications to modern IT virtual environments," said Michael Strohl, CEO and President at Entisys Solutions and its Southern California division, Agile360. "We are looking forward to helping our customers get up and running with Sphere 3D's V3 virtualization family, so that they can immediately take advantage of its unique, value-add capabilities, like their scale-out and scale-up appliance architecture and workload optimized approach to virtualization," said Matt General, Vice President and CTO of Entisys Solutions and Agile360.

"Our recently-launched, next-generation V3 virtual application and desktop solutions make modernized IT infrastructure accessible to every company, no matter how large or small, and are a key part of our strategy to deliver a complete cloud solution - private, public and hybrid," said Eric Kelly, CEO Sphere 3D. "Our unique approach to the delivery of virtual desktops, containerized applications and hybrid cloud storage, coupled with the Entisys team's exceptional skills and end-to-end sales and service capabilities, gives customers a clear path to success."

Sphere 3D has created a portfolio of vertically-integrated solutions that address the needs of organizations of all sizes looking to move from the physical environment to a virtual infrastructure. The recently-[announced](#) V3 virtual workspace families provide unmatched flexibility for organizations that have distributed workforces and require secure, easy data access and simplified management of virtual desktops and applications.

The V3 families leverage and combine storage, server and virtualization services. They come pre-provisioned with Sphere 3D's [Desktop Cloud Orchestrator™](#) ("DCO") software to enable users to quickly deploy and easily manage their infrastructure. The V3 product portfolio is segmented into three categories: [V3 Smart Nodes](#) for large, centralized enterprises; [V3 End User Computing \(EUC\) Nodes](#) for decentralized and Remote Office, Branch Office (ROBO) locations; and [V3 Flex Nodes](#) for smaller businesses and branch locations - even locations with as few as ten users. The new V3 family can also be integrated with Sphere 3D's [Glassware 2.0™](#) containerization technology as well as the Snap family of private, public or hybrid cloud storage solutions, delivering complete cloud capabilities for end user computing needs. Additional details can be found at the [V3 Appliance Features Web Page](#).

About Entisys Solutions

Entisys Solutions, Inc., along with its Southern California division, Agile360, deliver state of the art methodologies and broad solution offerings around converged infrastructure systems and is a certified solutions provider for VMware® Virtualization; Microsoft® Virtual Infrastructure and Management solutions; and Citrix® Desktop and Application Delivery Virtualization among others.
