

Overland-Tandberg's SnapServer NAS Solution Now Integrated with ABPTech's Video Surveillance Management software

April 12, 2018

SnapServer NAS integration with ABP Tech Mx-MSP™ for real-time and secure remote IP monitoring

SAN JOSE, Calif. and DALLAS, April 12, 2018 (GLOBE NEWSWIRE) -- [Overland-Tandberg™](#), a brand of Sphere 3D Corp. (NASDAQ:ANY) and a leading provider of data management, backup and storage solutions, and ABP Tech, a value-add Specialty Distributor for IP Technology Solutions, are pleased to announce that ABP Tech now offers Overland-Tandberg's SnapServer® Network Attached Storage (NAS) integrated with ABPTech's Mx-MSP™ remote video surveillance monitoring software. ABP Tech will be showcasing this integrated SnapServer and Mx-MSP™ solution at the MOBOTIX booth #16089 at the ISCWest Show April 11 – 13 at the Sands Expo, Las Vegas, NV.

With the latest integration of these two solutions, Video Surveillance Integrators and MSPs now get video storage solution that includes system health monitoring and achieves top up-time expectations through a simple management interface. The SnapServer NAS provides modular and expandable storage that is optimized for high-performance environments like Video Surveillance. Mx-MSP™ is an enterprise class secure remote monitoring & management platform that gives partners an expedient and secure system to immediately alert designated personnel to a wide variety of incidents as well as the ease of performing remote maintenance or security updates in a much shorter timeframe than typical non-integrated solutions pervasively found in the market.

"We are pleased to add Overland-Tandberg and its SnapServer NAS solution as our preferred MOBOTIX IP camera solutions storage partner," said Robert Messer, president of ABP Tech. "Our Mx-MSP™ management and remote monitoring software empower Integrators to centrally manage and monitor all their decentralized MOBOTIX IP camera solutions and SnapServer Video Storage units—it's powerful and really helps our operational workflows."

"The modularity, expandability, and high-performance is what enables SnapServer NAS to be well suited for video surveillance solutions, and why we are so excited about this next step in our partnership with ABP Tech," said David Ocsher, Vice President Sales, North America.

Solution Availability

The SnapServer NAS solutions integrated with Mx-MSP™ software is available today from ABP Tech and is being showcased at exhibit booth #16089 at the ISCWest Show April 11 – 13 at the Sands Expo, Las Vegas, NV.
