

Overland Storage Customers Offer Inside Look at Backup and Recovery to Storage Networking World Fall Attendees

October 21, 2005

Carnegie Mellon University and National Instruments to Share Insights
on Successful Backup and Recovery Implementations

SAN DIEGO, Oct. 21 /PRNewswire-FirstCall/ -- Offering an inside look at successful backup and recovery solutions and the advantages of Overland Storage's REO SERIES(TM) and NEO SERIES(R), two Overland Storage (Nasdaq: OVRL) customers, Carnegie Mellon University and National Instruments, will present the results of their successful implementations to Storage Networking World Fall attendees on Wednesday, Oct. 26, 2005 in Orlando, Fla.

From 3:05 to 3:50 p.m., Jonathan Woytek, computing manager for the National Robotics Engineering Consortium at Carnegie Mellon University, will highlight how Overland's NEO 4100 automated tape library and REO 4000 and REO 9000 disk-based backup and recovery appliances created an easily expandable solution to meet the Consortium's backup needs. The Consortium manages an average of 15 research projects simultaneously, each creating anywhere from a few hundred gigabytes to 12 terabytes of critical data.

From 4:55 to 5:40 p.m., Jeffrey Mery, data center and enterprise storage manager, National Instruments, will discuss how the company, a leader in virtual instrumentation, increased its backup and recovery while lowering media costs. National Instruments used Overland's NEO 8000 and REO 4000 to create a solution that serves the growing storage requirements of their 3,500 employees in 40 countries.

About Overland Storage

Now in its 25th year, Overland Storage is a market leader and innovative provider of simply protected storage solutions -- smart data protection appliances and software modules designed to work together, affordably, to ensure that information is automatically safe, readily available and always there. Overland's award-winning data protection solutions include the REO SERIES(TM) of disk-based backup and recovery appliances and the NEO SERIES(R) of tape libraries. Overland sells its products through leading OEMs, commercial distributors, storage integrators and value-added resellers. For more information, visit Overland's web site at www.overlandstorage.com.
