Overland Storage Offers Best Practices Webinar

March 21, 2006

```
      Analyst Brad O'Neill and End User Will Discuss Disk-to-Disk Backup and
                          Recovery in the Real World

      What:    In this exclusive Webinar, Brad O'Neill, Senior Analyst with The
               Taneja Group and end user Peter McCallum, server and storage
               administrator of Alliant Techsystems, Inc. (ATK), will discuss
               best practices for disk-to-disk (D2D) backup and recovery.
               Discussion topics will include disk backup deployment scenarios,
               economics of disk-based data protection, and the future of disk
               data protection.  In addition, the Webinar will include a
               first-hand account of ATK's experience with deploying D2D backup
               with Overland's REO SERIES disk-based backup and
               recovery appliance.

      When:    Thursday, March 23, 11 a.m. PST / 2 p.m. EST

      Where:   To attend this exclusive Overland Storage Webinar (Nasdaq: OVRL),
               please register online at: https://overlandstorage.webex.com, and
               click on "Best Practices Webinar."

      About Overland Storage
```

Now in its 25th year, Overland Storage is a market leader and innovative provider of simply protected storage solutions -- smart data protection appliances and software modules designed to work together, affordably, to ensure that information is automatically safe, readily available and always there. Overland's award-winning data protection solutions include the ULTAMUS SERIES(TM) of protected primary storage appliances; the REO SERIES(TM) of disk-based backup and recovery appliances; and the NEO SERIES(R) of tape libraries. Overland sells its products through leading OEMs, commercial distributors, storage integrators and value-added resellers. For more information, visit Overland's web site at www.overlandstorage.com.
