This Schedule 14A filing consists of the following communication relating to the proposed transaction in which Sphere 3D Corp. (“Sphere 3D”) will acquire all of the issued and outstanding capital stock of Gryphon Digital Mining, Inc. (“Gryphon”) through a merger transaction (the “Merger”), in which Sphere GDM Corp., a Delaware corporation and a wholly-owned subsidiary of Sphere 3D (“Merger Sub”), will merge with and into Gryphon, with Gryphon surviving under the name Gryphon Digital Mining USA, Inc., as a wholly-owned direct subsidiary of Sphere 3D, and Sphere 3D will issue common shares in exchange for all of the issued and outstanding capital stock of Gryphon, pursuant to the terms of an Agreement and Plan of Merger, dated June 3, 2021, as amended on December 29, 2021, by and among Sphere 3D, Gryphon and Merger Sub:

FAQ for the Merger

The communication listed above was first used or made available on Sphere 3D’ website on January 12, 2022.

Why are Sphere 3D and Gryphon merging?

We believe the Merger of the two companies will provide an excellent opportunity to create meaningful value for our shareholders and will set the bar for future bitcoin mining companies by seeking to bring to fruition Gryphon’s mission to create the world’s leading net carbon negative bitcoin miner. Both companies are excited about the developing applications of blockchain technology and want to be a major player in its development.

Who will lead the combined company?

Upon the closing of the Merger, the combined company will be led by Robby Chang as Chief Executive Officer and a director. Rob will be joined on the executive team by Dan Tolhurst as President and a director and Kurt Kalbfleisch as Interim Chief Financial Officer. Brittany Kaiser, Duncan McEwan, Patricia Trompeter, Richard Cooperstein and Joseph Nejman will also serve as directors of the combined company.

Will Sphere 3D change its name upon the completion of the Merger?

If Sphere 3D’s shareholders vote to approve the Merger and the proposal to change Sphere 3D’s name, Sphere 3D’s name will change to “Gryphon Digital Mining, Inc.” after the consummation of the Merger.

Does Gryphon have any miners in operation? If so, how many?

As of January 6, 2022, Gryphon has deployed a total of 2,400 S19J Pro Antminers, with an additional 600 S19j Pro Antminers delivered and awaiting installation.

Why is Sphere 3D seeking shareholder approval to consolidate the Sphere 3D common shares on a one (1) new common share for up to five (5) old common share basis?

This optional share consolidation is driven by Nasdaq listing requirements. One of the Nasdaq rules requires Sphere 3D to re-apply to have its shares listed on Nasdaq following this change of control transaction because it is combining with an entity that is not listed on Nasdaq. As part of the re-application process, Sphere 3D’s stock must maintain at least a \$4.00 price for a certain number of trading days prior to the consummation of the Merger. The share consolidation proposal provides the option for Sphere 3D’s board of directors, at its discretion, to utilize any share consolidation necessary as part of the Nasdaq re-application process to keep its shares above the \$4.00 listing requirement in order to consummate the Merger.

If the share consolidation occurs, how many shares will I have as a Sphere 3D shareholder and what happens to the price of my shares?

If a share consolidation is effected in connection with the consummation of the Merger, the percentage ownership in Sphere 3D by the Sphere 3D common shareholders will remain the same even though the total number of shares held by Sphere 3D common shareholders will be represented by a smaller number of Sphere 3D common shares. Additionally, there is no assurance that the per share market price of the Sphere 3D common shares following a share consolidation will remain higher than the per share market price immediately before the share consolidation or equal or exceed the direct arithmetical result of the share consolidation.

Is there dilution involved in this transaction?

It is anticipated that there will be dilution to Sphere 3D shareholders and Gryphon stockholders upon the completion of the Merger and upon the issuance of any Sphere 3D shares to Hertford Advisors Ltd. upon the completion of the Merger. The amount of dilution will depend on the number of Sphere 3D common shares issued upon the completion of the Merger in accordance with the terms of the Merger agreement and the terms of the Series H Preferred Shares issued to Hertford Advisors Ltd.

Will Sphere 3D still be a foreign private issuer after the completion of the Merger?

For Sphere 3D to maintain its current status as a “foreign private issuer” (as defined in Rule 405 under the Securities Act of 1933, as amended (the “Securities Act”)), Sphere 3D must not have any of the following: (i) a majority of Sphere 3D’s executive officers or directors being U.S. citizens or residents, (ii) more than 50% of Sphere 3D’s assets being located in the United States, or (iii) Sphere 3D’s business being principally administered in the United States. As Gryphon is headquartered in Nevada and its operations are located within the United States, Sphere 3D may lose its status as a foreign private issuer sometime after the completion of the Merger.

Where does the pending Merger stand now and what happens next?

Sphere 3D filed a Form F-4 registration statement with the Securities and Exchange Commission (the “SEC”) on January 5, 2022. After the registration statement is declared effective under the Securities Act, Sphere 3D will hold a special meeting of its shareholders to vote on the Merger transaction among other items. If the Merger is approved and the other closing conditions to the pending Merger are satisfied or waived, Sphere 3D and Gryphon will complete the Merger transaction. Please refer to the Form F-4 registration statement for more specific information on the special meeting and Merger closing conditions. Both Sphere 3D and Gryphon anticipate that the Merger will close in the first quarter of 2022.

Why are my questions regarding the pending Merger, Sphere 3D or Gryphon not being answered on Twitter or other social media platforms?

In order to comply with regulatory requirements for the pending Merger, Sphere 3D’s and Gryphon’s executives and board of directors need to be more limited in their communications, including on social media. Sphere 3D’s and Gryphon’s executives and board of directors will provide information on the pending Merger as they are able to do so (including through filings with applicable regulatory agencies); however, until the completion of the Merger, these individuals will not be able to respond to questions or engage in other communications in the same manner as prior to the announcement of the Merger.
